February 28, 2026

Introduction

When you download a CaseKeepers journal, it is placed into a “Package.” The Package contains your selected journal entries and allows you to download both the journal and its attachments. If you are already familiar with the process, follow the [Quick Start](#). For detailed instructions, see the [Full Step-by-Step Guide](#) starting on page 2.

Quick Start

Downloading your journal is done in two actions:

1. Create a “Package” that contains the journal entries and download the Package as a PDF document
2. Download the Attachments as a ZIP file

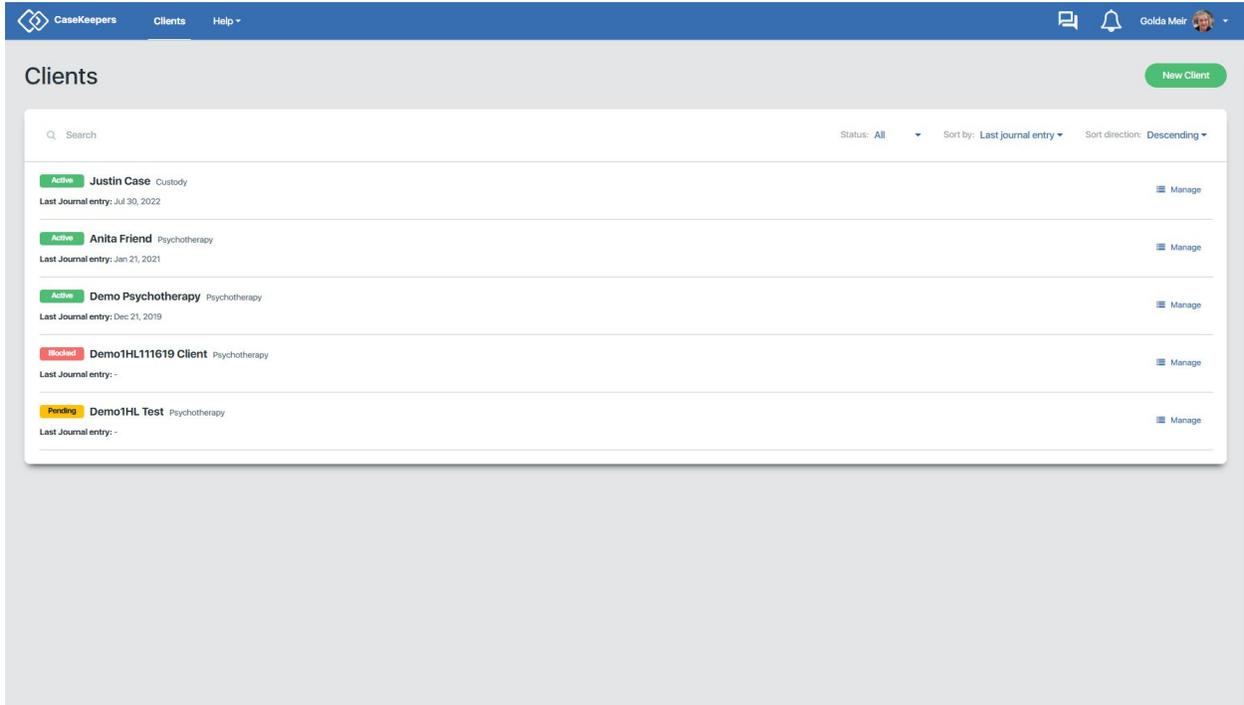

Follow these steps to carry out both actions:

1. Log in (Professional version).
2. Open the client.
3. Click Manage → Packages.
4. Click New Package → Save.
5. Open the package → Actions → Add Items.
6. Click Select All → Add Selected to Package.
7. Actions → Print Package (Save as PDF).
8. Actions → Download All (attachments ZIP).
